

## Erratum

Adv Dermatol Allergol 2021; XXXVIII (1): 176  
DOI: <https://doi.org/10.5114/ada.2021.104379>

The publication “Imko-Walczuk B, Renczyńska-Matysko J, Kadylak D, Dębska-Ślizień A. Rare skin tumours in organ transplant recipients. *Advances in Dermatology and Allergology/Postępy Dermatologii i Alergologii* 2020; 37(6): 862-870” was retracted upon authors request due to unauthorized use of micrographs (Figs. 2, 3, 5) that belong to Prof. Wojciech Biernat, Head of the Department of Pathomorphology of the Medical University of Gdańsk. For that oversight, the authors do sincerely apologize. The micrographs were previously published in the book chapter “Other rare skin cancers. In: *Dermatological problems of patients after organ transplantation*. Imko-Walczuk B, Dębska-Ślizień A, Szepietowski J, Rutkowski B (eds.), Cornetis. Wrocław 2014; 207–220”.
